Vital signs

Nursing notes

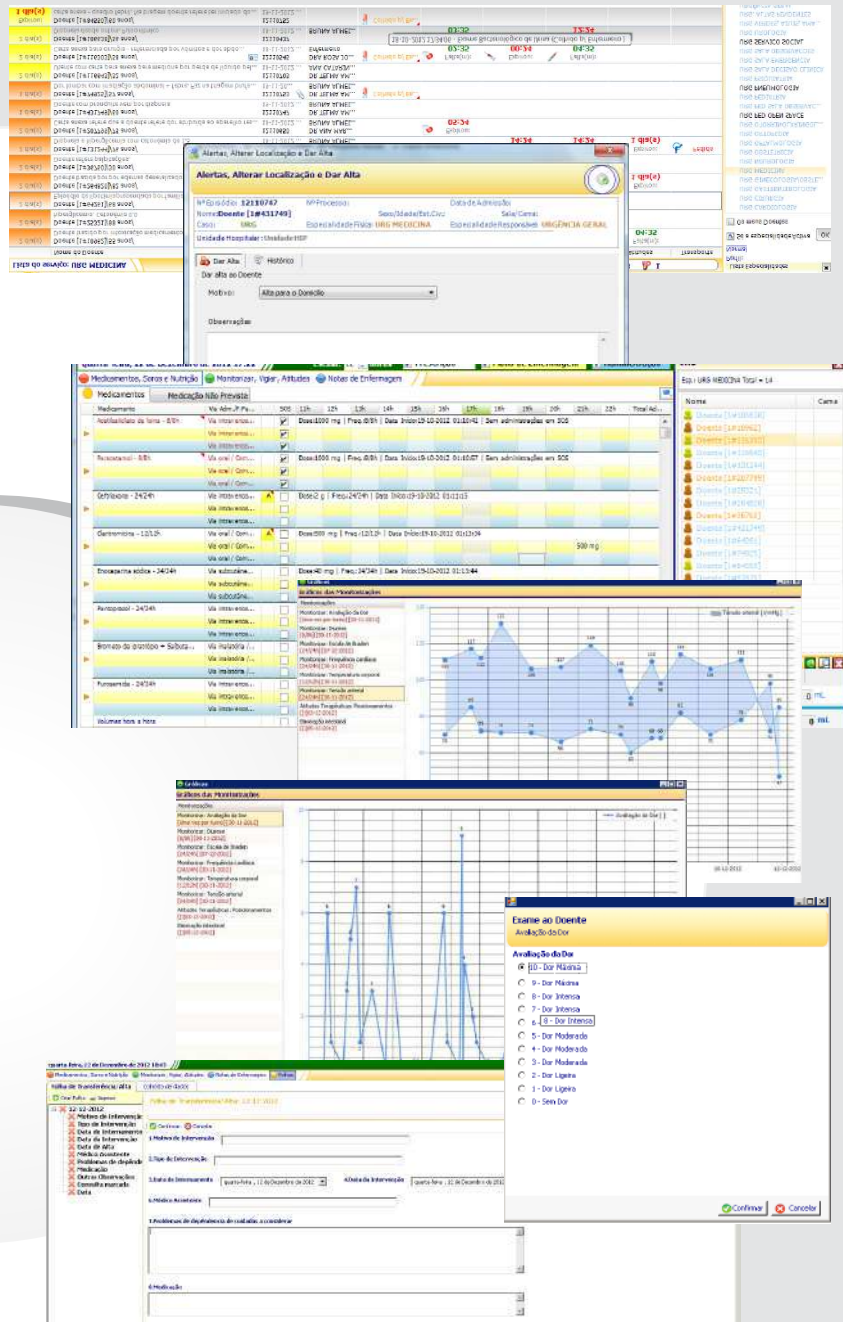

The screenshot displays a comprehensive medical prescription system interface. At the top, there's a 'Histórico de Urgência' (Emergency History) section with a table for August. Below this, the main interface is divided into several functional areas:

- Medicamentos (Medications):** A table listing drugs like Paracetamol, Diazepam, Diclofenac, and Tricoalocissido with their respective dates, times, and cumulative totals.
- Situações e Parâmetros (Situations and Parameters):** A form for recording patient status, including allergies (e.g., 'Alergia'), vital signs, and other clinical parameters.
- Tabletas de prescrição (Prescription Tablets):** A detailed dosage calculation table for Diazepam 5mg/5ml, showing the relationship between patient weight (kg) and the number of tablets to be administered.
- Gráficos (Charts):** A line graph showing trends over time, likely representing vital signs or medication levels.
- Formulários (Forms):** Various input fields for patient information, medication details, and clinical observations.
